

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re application of:

Cosetta Schiavolini

Serial No.: 10/595,779

Filed: 05/11/2006

For: Horology Crystal With Three-Dimensional Decoration

Attorney Docket No.: SHIM 0101 PUSA

Group Art Unit: 2833

Examiner: Than S. Phan

AMENDMENT UNDER 37 C.F.R. § 1.111

Mail Stop Amendment
Commissioner for Patents
U.S. Patent and Trademark Office
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

This is a response to the Office Action mailed July 2, 2007. When reviewing the outstanding office action in preparation of a response, it became apparent that the Examiner issued the office action on the wrong claim set.

The present application is a 371 national stage of PCT application. When the application was electronically filed, a preliminary amendment was included which is specifically listed on the electronic acknowledgment receipt. It appears that this preliminary amendment was not considered in light of the Examiner's failure to identify the preliminary amendment in Box 1 and the Examiner's indication in Box 7 that claims 5-10 are objected. In the detailed action, the Examiner indicates that claims 5-10 are in improper multiple dependent form and that the claims are not being treated on the merits.
